DREAM – Maybe the best night's sleep you can remember.

Tired of tossing and turning, counting sheep, or staring at the ceiling? Reclaim your nights with DREAM gummies from Deltrium, the natural and gentle solution to restful sleep. Our expertly crafted gummies fuse the calming effects of Delta-8 THC with the gentle touch of CBN, creating a unique synergy that helps you drift into a peaceful slumber—no more restless nights. Only a serene oasis of dreams awaits.

DREAM gummies deliver a powerful blend of cannabinoids

- Delta-8 THC is psychoactive but is less potent than Delta-9-THC. Users often report a more mild and clear-headed "high" compared to the more intense effects of Delta-9-THC.
- L-Theanine is known for its calming effects and ability to promote relaxation.
- CBN, when blended with other cannabinoids like Delta-8 THC, promotes sleep.
- Passion Flower's calming effects have been traditionally used to treat conditions such as anxiety and insomnia. Its addition makes DREAM gummies pleasant and gentle.

Quantity

25 - 1 inch Gummies for up to 100 doses
